CHRISTIAN ENDEAVORERS

Holding National Meeting
In the City of Baltimore.

MISS STARLING SPEAKS.

Hopkinsville Lady Discusses
Prison Work In Woman's
Meeting.

Baltimore, July 9.—Special Christian Endeavor Convention at which sermons were delivered by some of the clergymen among the visiting delegates, were held this morning in seventy-seven churches of various denominations and at night twenty-one consecration services were held simultaneously in as many churches. In addition in the afternoon a monster meeting for men was held in Armory Hall at which Rev. W. E. Biederwoif, of Monticello, Ind., and Rev. Charles Stelzle, of Chicago, were the speakers and during which 300 men professed conversion. At the Lyric Mrs. James L. Hill, of Salem, Mass., presided over a meeting for women which crowded the building. At this meeting the principal address was delivered by Miss Ellen M. Stone, of Macedonia. In response to a request Miss Stone gave an account of her kidnapping. In conclusion Miss Stone asked the prayers for the missionary work in that country—a country where brigandage is never put down by the Government, she said.

Other afternoon meetings were held at Harlem-avenue Christian Church, where prison Christian Endeavor was discussed by Chaplain A. G. Gates, of the Kansas Industrial Reformatory, Rev. J. J. Burkhardt, of the Maryland Prisoners' Aid Society, Miss Lucy Starling, Ky. Prison Christian Endeavor Union and others.

COUNCIL MEETING.

Eighteenth Street to be Widened—Other Matters.

The city council held their regular monthly session last Friday night, Mayor Henry and all the councilmen being present.

After the regular routine business was disposed of several other matters were taken up. The proposition of H. D. Wallace to deed to the city 18 feet of ground on West Eighteenth street, for the purpose of widening said street for a distance of 700 feet to Canton pike was accepted and the work will be done at once. The city is to remove the old fence and put up a new one in its place.

Dr. R. C. Handwick, through his attorney, F. L. Wilkinson, requested that his sewerage franchise, recently purchased, be transferred to the Hopkinsville Sewerage Company, and an ordinance to that effect was adopted. In the matter of the location of a septic tank on Little River, at the foot of West Ninth street, same was referred to a committee with a request that a report be made at the next meeting.

The matter of purchasing a fire truck was referred to a committee composed of Councilmen Galbreath, Davis, Twyman and Jackson, with power to act.

Nance & Winders and George Merritt, Jr., were each granted a coffee house license.

FIVE NEW MEMBERS

Admitted to the Order of the Golden Cross.

Last week five new members were admitted to the order of the Golden Cross and several more will join this week. If you want to live long, join this order. In 1882 this order paid to the estate of Mr. J. K. Grant \$4,000 and has not lost a member in good standing since.

CAPTURED BY THE JAPS.

First Russian Territory occupied By Them During The War.

ISLAND OF SAKHALIN.

Something Tangible to Bring Up In the Coming Peace Conference.

St. Petersburg, July 10.—With the Japanese flag hoisted for the first time on Russian soil after eighteen months of war, the importance of the landing on the island of Sakhalin is generally admitted, both in newspaper comment and in government circles. Complete occupation of the island is regarded as a foregone conclusion.

The Novoe Vremya voices the general sentiment in holding that control of Sakhalin puts a powerful lever in the possession of Japanese diplomacy, which finally has something tangible in its hands to throw on the scales with the sword in the coming conference.

ISLAND OF SAKHALIN.

Japan's Latest Capture is a Veritable Earthly Sheol.

The Island of Sakhalin, which the Japanese have just captured from Russia, has a frightful reputation, more than half its population being convicts, mostly murderers, for it is now to Sakhalin that "politicals" are sent. A glance at the map will show why Japan was desirous of retaking Sakhalin, over which she hoisted the Japanese flag early in the last century. Some fifty years later, however, Japan handed the island to Russia in exchange for the Kurile Islands. From its geographical position Sakhalin would seem naturally to belong to Japan, being the most northerly of the Japanese group. It is only separated from the northern island of Yezo by the Perouse Strait.

The island is 590 miles long and from 17 to 100 broad, and in 1898 its population was about 30,000. The difficult and dangerous straits separating it from Japan are the same width of the English Channel between Dover and Calais. For the most part the island is covered with primeval forest, so dense that the rivers are the chief native highways, navigated by the dugouts in summer and crossed in dog or reindeer sledges in winter. With the opening of winter the narrow Straits of Tartary, dividing Sakhalin from the Siberian coast, are frozen over, and so far as water communication is concerned the island is cut off from the world and the mails are brought across from the mainland by sledges harnessed with long teams of arctic dogs.

WILL SOON SELL

Tobacco Crop at Satisfactory
Prices.

Mr. W. W. Radford, Chairman of the Christian county organization of the Planters' Protective Association, says the farmers are at liberty to send their tobacco to any market that they may wish to patronize. The 1905 pledge merely gives the association the right to see that the tobacco of its members is properly prized and inspected, according to Mr. Radford. He says:

"The Executive Committee does not seek to influence the farmer in choosing a market. It merely proposes to protect each individual member and the association itself in seeing that the inspection and pricing are satisfactory. The association is selling tobacco right along at good prices, and its affairs were never in so good a shape. The indications are that the entire crop on hand will soon be sold at prices that will surely please the growers."

FORTY INCHES.

Who Can Beat This Hand of Tobacco?

We have received through the mails a "hand" of tobacco from the crop of Mr. T. F. Wadlington, of near Newstead, which is perhaps unequaled anywhere in the Dark District. It measures almost 40 inches in length and is of the bright color so highly prized. If Mr. Wadlington has much of it, he is in a fine position to become a "bloated millionaire."

NEW POSTMASTER.

H. E. Woosley Succeeds J. L. P'Pool at Bainbridge.
